Storage and Sensitive Item Storage

MARVEL[®] SECURE SOLUTIONS[®]

WEAPON RACKS | KEY FEATURES

THE QUICKLOK SYSTEM NOW INCLUDES
THE SECURITY ENHANCEMENT LATCHPLATE

A MODULAR GUN RACK

The adjustable racks are universally adaptable to ever changing weapon requirements and specs. **Marvel's Weapon Racks** can store ALL small arms from an M9 to a CLU Javelin. Additionally, racks can be fitted with a wide range of bracket designs that accommodate ALL optics and accessories. Weapons can be stored with **Optics On** for maximum efficiency and readiness. **Marvel will Custom Design Your Weapon Storage Area at No Charge** to maximize efficiency while abiding by all applicable regulatory standards.

MARVEL[®] SECURE SOLUTIONS[®]

GEAR LOCKERS

Stackable - 1 Tier, 2 Tier & 3 Tier | Modular - Changes with Your Needs

Marvel Gear Lockers can be fully welded or stackable based on your preference and needs. The **Stackable Gear Lockers** can be placed to maximize available space in areas with differing ceiling heights in addition to customizing individual storage requirements. The Gear Lockers feature an offset diamond cut pattern to allow proper airflow without compromising security. Marvel also offers a free layout and design service to ensure the Gear Lockers will fit in the space you have and accommodate all gear being stored.

SENSITIVE ITEMS STORAGE

Marvel Racks are also designed to accommodate **Sensitive Items Storage**.

From optics to radios, every sensitive item you have can be stored in the racks we offer. These items can be stored in the same rack as the weapon or as stand alone racks that can be labeled for inventory control.

Marvel Securesite allows for instant accountability of items without having to actually open the racks. Whatever you need to store, Marvel has the solution for you.
